PROFESSIONAL SUMMARY

Electronics and Communication Engineering student and Full Stack Developer with hands-on experience in the Software Development Life Cycle (SDLC), specializing in MERN stack technologies. Delivered 15+ full stack projects, including 3+ production-grade MERN applications built with React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, database design, authentication, Git version control, and Agile teamwork. Seeking a Full Stack Developer / Software Engineer internship to build production-grade software.

SKILLS

Programming Languages: JavaScript, Python

Frameworks: React, Node.js, Express.js

Databases: MongoDB

Tools: Git, GitHub, VS Code, Vercel

Soft Skills: Problem Solving, Team Collaboration, SDLC

EXPERIENCE

Full Stack Developer Intern (MERN Stack) - Enhanced user engagement by 30% through optimized UI.

EduSpine

Coimbatore, Tamil Nadu

- Built and deployed 2 full stack web applications in a 3-month internship using React.js, Node.js, and MongoDB. Delivered high-performance, responsive user interfaces.
- Designed scalable backend REST APIs for real-time data processing and CRUD operations across multiple modules.
- Collaborated with a cross-functional team throughout the SDLC, focusing on feature design, deployment, and enhancing app reliability and user experience.

RELEVANT PROJECTS

AI-Powered Road Monitoring App

2026-04-07 - 2026-08-07

Role: Frontend Developer | Team Project

Developed the frontend interface for an AI-powered application that detects road hazards using Albased image analysis.

Full Stack Web Application (Project Demo System)

2026-02-02 - 2026-03-11

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST API

Built a full stack web app with seamless frontend-backend integration and CRUD functionality.

Social Media Web Application (MERN Stack)

2026-05-11 - 2026-06-11

Tech Stack: React.js, Node.js, Express.js, MongoDB, REST API

Built a full stack social media platform with authentication, dynamic posts, and real-time chat.
